STANSFIELD TURNER

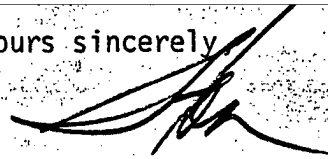

1 July 1980

Dear Professor and Mrs. Sprague,

Pat. and I had such a delightful breakfast at the Lord Jeff with Rosemary a few weeks ago. I did get back for my 35th. It was a nice event followed by a Sunday and Monday at George Shinn's farm in Manchester, Vermont, along with the Bill Websters, Bill Liedtkes, and Bill McGinleys. Enjoyed seeing Gene Reilly again for the first time in years. He is most distinguished with that beard. As I gather is his habit, he wrote and read an ode especially for our reunion. He had a number of his lovely daughters and their spouses or boyfriends with him there also.

Not long after the reunion, Patricia and I headed off on an official trip

Yours sincerely,

STANSFIELD TURNER
